

Yes,
with us, it happens

INFINITE GREEN®
Faithful to Nature, Precise to Science

Bee Health Improvements

Economic Performance

Cost savings and increased yields indicate strong economic performance.

Physiological Resistance

Bees show improved immunity and stress coping abilities.

Queen Fertility

Increased laying rate and healthy development of new bees.

Operational Convenience

Ready-to-use product saves time and simplifies feeding.

Jerry's Fonda Forte™
Premium feed for bees
complete nutrition for stronger
generations

Our organization intends to contribute to the global advancement of animal health, and we are dedicated to this noble aim via hard effort, persistence, and ingenuity.

Your Problems

When there is little or no pollen available around the hives

- Weak Brood Development – larvae stay underfed and fragile.
- Reduced Royal Jelly – nurse bees stop feeding queens and brood.
- Declining Colony Strength – fewer workers, shorter lifespans.
- Lower Honey Yields – less nectar collected, weaker harvest.
- Higher Winter/Summer Losses – colonies collapse without strong bees.

IS SOLVED

We are here to back you up with our Premium solution.

Jerry's Fonda Forte stands out with more than 20% Diverse natural plants proteins. It Has all what bee needs to grow strong and healthy.

Nutritional Composition of Jerry's Fonda Forte

Scientifically tested in apiaries with proven results

"Our product has passed strict multi-stage testing to ensure purity, safety, and performance. From raw material checks to apiary trials and nationwide field tests with professional beekeepers, every step proved its effectiveness.

The Israeli Ministry of Agriculture further validated its quality and reliability through a comprehensive Experiment
